FORM AND FUNCTION IN HARMONY

TECEloft – toilet ceramics with cyclon flush

Sanitary systems close to you

A NEW STANDARD FOR BATHROOMS

TECEloft – toilet ceramics featuring modern style and a universal design, ideal for any bathroom ambience

TECEloft not only looks impressive, but also blends perfectly into any bathroom environment with its subtle and clear design language.

Appealing in every way

With its wrap-over design, the lid surrounds the ergonomically shaped seat, perfectly matching the shape of the toilet ceramics. It is available in two versions.

Classic, elegant design

Modern, slim design

Purely clean

The rimless design of TECEloft prevents hidden deposits and stains from accumulating in the first place. An easily removable seat ensures both straightforward and hygienic cleaning.

Reliable, efficient and quiet:

- Cyclon flush technology for powerful, thorough rinsing and a perfect flush result
- Optimised cleaning through multiple rinses with every flush
- Quiet and splash-free thanks to controlled water flow and rimless design
- Perfect results even with the water-saving 4/2-litre flush

ADDED VALUE IN THE SYSTEM

System technology makes all the difference. Only through the perfect interaction of all components do products reach their full efficiency and become a complete solution.

The perfect choice

From functional to exclusive – with more than 200 flush plates available in a variety of designs and materials, there's an option for every taste and bathroom design. They all have one thing in common: they fit perfectly with all TECE cistern variants and can also be easily replaced.

Perfect combination

Perfect fit ensures that TECEloft always delivers the best results when combined with any TECE toilet module. This guarantees a strong, effective flush even in compact installations or with smaller flush volumes. Meanwhile, sophisticated geometry prevents splashing, even with large installation heights and high flush volumes.

Perfect fit – sanitary systems are our speciality

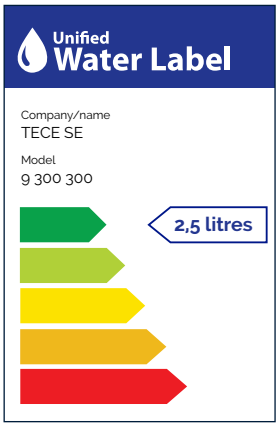

Whether in front of or behind the wall: TECE offers professionals a comprehensive programme of system components that are perfectly coordinated. In this way, we ensure that the interaction between our products functions just as smoothly as our products themselves.

Perfect unity

Saving water has never been so easy.
Combining TECEloft toilet ceramics with a cistern featuring a 4/2-litre flush helps us to conserve our most precious resource every time the toilet is used. And there are no compromises on hygiene or comfort, as TECEloft is perfectly tuned to the flush settings of TECE cisterns.
This guarantees optimum flushing results without splashing and a quick installation – no need for adjustments.

The 4/2 litre flush gives the TECE Uni and Base cisterns a Unified Water Label certification in the highest possible category.

IT DOESN’T GET ANY EASIER

TECEloft – easy and effortlessly mounted on the wall and ready for use in no time.

TECEloft toilet ceramics can be installed quickly, securely, and comfortably in just a few steps.
The installation is easily done from above.
Once the attachment points are installed, simply slide the toilet ceramics onto the threaded rods in the wall. Tighten, done!

Clever by design

- Easy and effortless installation from above
- Concealed attachment with no visible screws
- Straightforward assembly steps
- Sturdy and long-lasting attachment

Concealed attachment

The integrated mounting system allows a quick, secure installation of toilet ceramics by just one person.
The concealed attachment ensures a stable installation with no visible screws – for a pristine and permanently secure finish.

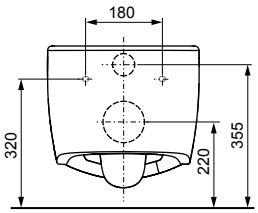

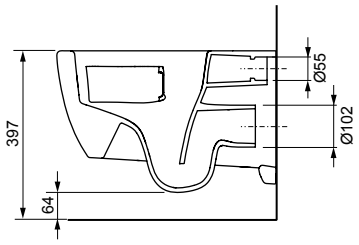

Quality down to the last detail

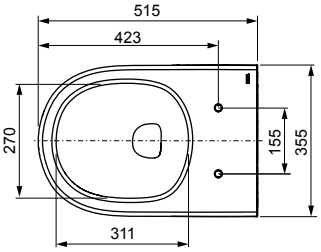

The lid and seat, crafted from premium Duroplast, can be easily and effortlessly fitted using tilt anchors.
